HMF Strengthens Its International Focus

Bad Münder, 13. January 2026

HMF Smart Solutions is strengthening its international focus by joining the German Committee on Eastern European Economic Relations (in German: Ost-Ausschuss der Deutschen Wirtschaft). As part of this well-established and influential network, HMF will work to expand economic relations and build long-term partnerships in Central, Eastern and South-Eastern Europe as well as Central Asia.

The Committee on Eastern European Economic Relations is a lobbying organization recognized by the German government and represents the interests of the entire German economy in these key future regions. For HMF, membership represents a strategically significant step, enabling even closer international networking and targeted exchange with political decision-makers, business associations and companies in the relevant markets.

At the same time, HMF underscores its commitment to actively contributing to economic development, the strengthening of market economy structures and cultural exchange in the target regions.

“Membership in the German Ostauusschuss provides valuable perspectives for sustainable growth and fosters collaborative partnerships in dynamic markets,” says Dr. Katharina Tadje, Chief Business Development Officer. As an innovative provider of professional communication solutions, HMF Smart Solutions contributes its technological expertise and market experience to the network and aims to play a constructive role in shaping dialogue between business, politics and society.
